

Welcome Home!

After taking off your coat and shoes remember to:

- Wash your hands with soap and warm water before touching anyone or anything in your home, including pets!
- Wipe down your cell phone, door knobs and locks
- Wash your hands again!

Post this at every entrance in your home.

Extra Precautionary Steps:

- Put a bottle of hand sanitizer at every entrance
- Remember to wash hands if any outer door handles are touched
- If you have long hair, consider wearing a hair band or hat to keep hairs off your face, and you from touching your face
- Toss any cloths to wipe down surfaces into the wash after each use
